

School's Open...Drive Carefully!!!

Here are some tips that will help protect our children:

- Drive slowly near schools and residential areas during school hours.
- Obey school zone speed limits and come to a complete stop at all intersections.
- Always stop for school buses that are loading or unloading students.
- Drive with headlights on so children and other drivers can see you.
- Don't use cell phones, eat, apply make up, or shave while driving.
- Be aware of children walking between parked cars and into the street.
- Leave home early to avoid being in a hurry and having to rush.
- Use extra caution in bad weather.
